

SUNSCREENS & PERFORATED METAL WORK

Perforated metal are the preferred choice for a wide range of applications, including sun screens, balustrades, decorative panels, outdoor and casual furniture, security grills, truck exhaust shields, automotive head-lining and sound proofing.

Different Shapes, sizes and pitch all contribute to a wide variety of styles for you to choose from, giving you either an airy open mesh with lots of light or a speckled mesh to shade you from the sun. Hole sizes and shape vary with the different shapes available.

- Round hole: 1.60 to 88.90 mm
- Square hole: 3.17 to 90.10 mm
- Hexagonal hole: 12.7 mm AIF to 75.00 mm A/F
- Slotted hole: 1.78 mm x 25.91 square end to 35.0 minx 45.0 round end.

If the perforation that you require is not listed, please don't hesitate to request free quote.
